Dear Licensee:

I am pleased to inform you that you have met all requirements for licensure as Lead Abatement Contractor in Connecticut. Your license number is effective as of the date of this letter. Your formal license will be mailed to you in the near future. Your name will appear on your license as shown above unless you notify us otherwise.

It is your responsibility to notify the Department of Public Health, Office of Practitioner Licensing and Certification, in writing, of any changes of name, residence address or business address, either within or outside Connecticut. Such notification to the Department of Public Health is required by law; failure to provide same may jeopardize the status of your license.

Please note that your license must be renewed annually during your month of birth. Renewal will be required in the first birth month that immediately follows the issuance of licensure. Failure to renew your license within ninety (90) days of the due date will result in your license becoming void. In that event, reinstatement would require a new application to the Department and a review of all credentials to determine your eligibility.

Should you have any questions regarding the renewal of your license, please contact the renewal staff at (860) 509-7603.

Respectfully,

Lesley Giovanelli, Environmental Sanitarian II
