Paterson, New Jersey 07503

ATTN: Mr. Chet Zalusky

Re: Recent Painting Contract at Community Center

Dear Chet,

I just wanted to drop a few lines to you in appreciation of the way you and your company handled your recent contract for the painting of the Community Center. Even though Mother Nature did not cooperate very well, the weather was the only negative item concerning the entire project.

Starting with you, it was really a pleasure working with someone that was so concerned with the customer's point of view on all matters. From the planning stages to the completion, it was comforting to see all promises become reality. Your professional mannerisms should be a standard for all contractors.

Even better was that the professionalism did not stop with you but was displayed by every member of your work crews. Everyone was polite, courteous and accommodating to our needs of daily operation and just plain made for a very pleasant experience which is not always the case with municipal work projects. The clean and neat work ethics were greatly appreciated and along with a great paint job should not go without acknowledgement.

Please pass my appreciation on to everyone involved with the project here at Riegel Ridge Community Center and again please accept my thanks for a job well done and for making it all happen the way it should.

Sincerely,

Arthur C. Cyphers, Director
Holland Township Parks & Recreation
